ACT NOW - LIMITED TIME OFFER!

For commercial use only—not intended for personal, family or household use. No interest and no payments for 120 days or more on qualifying purchases of Case IH parts of \$1,000 or more, when such purchases are made using a CNH Capital™ Productivity Plus Account (the "Account") during a single visit to a participating dealer between 5/1/2025 and 12/31/2025. The promotional period and promotional terms applicable to any Account balance resulting from such purchases are subject to early termination in the event any payment is not made on any other balance outstanding under the Account when due during the promotional period. Standard terms and conditions for the Account will apply to promotional balances after the termination or expiration of the promotional period – they will be subject to minimum monthly payment requirements and will accrue finance charges or interest (at an interest rate or credit rate of 18.9% per annum in the case of a Canadian account) in accordance with the agreement governing the Account. Customer participation subject to credit qualification, available credit, and good standing on all CNH Capital accounts. Not all customers may qualify for this rate or term. See your participating Case IH dealer for more details and eligibility requirements. Offer subject to change or cancellation without notice.

Augmenta® FIELD ANALYZER *hi-def spray precision!*

UNLOCK A NEW LEVEL OF SPRAY PRECISION

Each plant has its own fertilizer, crop protection, and growth aid needs that must be met in order for crop to emerge evenly, maximizing yield. With the Augmenta® Field Analyzer, you can spray fertilizer, desiccants, defoliants (harvest aids), or plant growth regulators (PGR) to meet each section's unique demands while improving your input savings and maximizing profit. The cutting-edge camera with vision-based technology perceives, analyzes, and applies based on what it sees, providing high-definition field analysis and environmentally sustainable results through all seasons. Harness this impressive AI technology to implement variable rate application in real-time like never before.
